

It's not the first time that we send our words of gratitude to ABZ Agency team. For the next phase of our website sufirestaurant.com we wanted them to develop two mobile apps for us.

First mobile app was an iOS native app for iPhone/iPad devices which completely repeats the functionality of our website. This was developed and was a Great Success.

Second mobile app is more important because it simplifies work of our staff. [It is ongoing but sure they will do a great job!]

It is a Daunting task when you want to develop a complex project and your developers are far away from you! But I have to say at ABZ Agency the CEO and the team are great and very Professional and Effective. They are always available on line and have great in-depth knowledge of the field that you feel at ease.

The outcomes of the projects that ABZ Agency has under-taken for me so far has been exactly as I wanted. The operation has been smooth and perfect, Apps works like a clock work, productivity has increased there not much can be said! Totally Happy! Great CEO, GREAT TEAM! KEEP UP WITH THE GOOD WORKS GUYS!

Thank You, ABZ Agency!
